...

"Doctor! I've had a stomachache ever since I ate three crabs yesterday." "Did they smell bad when you took them out of their shells?" "What do you mean 'took them out of their shells'?"

My Uncle Elroy used to sell pants for 25 cents apiece. Everyone called him Quarter Roy.

"Where's everyone going?" one chicken asked another as they ran along with the flock. "The farmer said some men are going to lay a sidewalk out front, and we all want to see how they do it."

...

I got arrested today for walking out of an art museum with a painting. I'm just so confused because earlier when I asked the security guard if I could take a picture he said, "Yes."

Why don't pirates take a shower before they have to walk the plank? They just wash up on shore.

Why wouldn't the dentist display his awards? He wanted to prevent plaque buildup.

I'm reading a book on anti-gravity. It's impossible to put down!

Father: "Hold your horses, son." 5-year-old: "I don't have any horses." Father: "It means calm down." 5-year-old: "I can't, my horses are gone."

How come fish are so skinny? Cause they only eat fish.

Son: Dad, can I have a dollar, please?
Dad: Son, don't you think you're getting too old to ask for a dollar?
Son: Hmm, maybe you're right. Can I have five dollars?

BACK THEN...

A computer was something on TV from a science fiction show, a window was something you hated to clean, and ram was the cousin of a goat.

An application was for employment, a program was a TV show, a cursor used profanity, and a keyboard was a piano.

Memory was something that you lost with age; a CD was a bank account. Compress was something you did to the garbage, not something you did to a file, and if you unzipped anything in public, you'd be in jail for a while.

Log on was adding wood to the fire, hard drive was a long trip on the road, a mouse pad was where a mouse lived, and a backup happened to your commode.

Cut you did with a pocketknife, paste you did with glue, a web was a spider's home, and a virus was the flu.

I guess I'll stick to my pad and paper and the memory in my head. I hear nobody's been killed in a computer crash.
